Public Services**

**Labour, Tory and Libs, they all promise massive national and local cuts.
Time for a Change in Local and National Policies.**

VOTE - Dave Green, Harry Tuttle and Norman Adams in the June County Elections

**DON'T FALL SICK, GROW OLD OR NEED CARE IN THIS TOWN -
WHERE ALL THE PARTIES CUT, CLOSE OR PRIVATISE SERVICES !**

What have we got after 20 years of New Labour, Conservatives and Lib Dems?

£900 million costs to PFI contractors to run local Schools
100s of £billions supporting dodgy bank deals nationally
Pensions still falling behind increasing tax bills.

Services cut and privatised and promises of much more
NCC paying millions to consultants and signing illegal deals
Health and Education going down road of privatisation
So much for New Labour promises, so much for the New
Tories , so much for the cuddly Liberals
Vote for candidates who campaigned for a better deal for
pensioners, for better services, for more housing, against
sell off of school fields and the waste of nuclear weapons.

Let's have some real alternatives

Vote No to the Brown/Cameron/Clegg policies.

What we believe - Our Alternative for Public Services

The NHS. Quality free health care for all, when and where you need it, in all areas of health. We will use NCC scrutiny committees to hold the Hospital Trusts accountable and to resist privatisation and cutbacks. Patients first, no wasteful PFI schemes and end privatisation in the NHS.

Social Services: Free quality care for the elderly and full support for disabled and carers. Restoring warden services in sheltered housing. No more sell offs of retirement homes. Restore past cuts that attacked the elderly, vulnerable and youth.

Local Amenities: Full funding for Leisure, Arts facilities, community centres and public utilities. Housing. No more facilities to be run by PFI

companies fleecing the public with massive hire costs charges.

Council housing: Stop the mass sell offs and PFI projects. Allow councils to invest all housing revenue in new homes and repairs.

Education: Good local schools for all children with good staff and facilities. End trust and academy moves. No selling off of school playing fields in Northampton to fund the PFI disaster.

Funding proper Services: We have the world's 4th richest economy, but past cuts paid for tax breaks for the wealthy and business. Reclaim the tax breaks - stop cuts.

VOTE SAVE OUR PUBLIC SERVICES

All Three Parties in Agreement - We've got to pay for the economic crisis

For years we've been told the free market rules and that privatisation or cuts in health services, education, utilities and transport is the only game in town. Now this nonsense has been exposed. The three parties support bailing out banks and making us pay the costs of that through cuts in services, job losses, higher taxes and lower pensions. But why should we suffer when the crisis is not of our making?

Spend our £billions on schools, hospitals and services not on the bankers gravy train.

VOTE 'Save Our Public Services'

For too long all parties have cut the Public Services that most of us rely on. They then fund tax breaks for the wealthy who go private.

VOTE for better services

VOTE NORMAN ADAMS (DELAPRE)

VOTE HARRY TUTTLE (LUMBERTUBS)

VOTE DAVE GREEN (OLD DUSTON)

| ◇ Community centres, street cleaning, theatres, advice centres - all cut! - <i>Tory & Lib Cuts!</i> | ◇ Meals on wheels privatised! Respite/Care Homes closed and privatised! - <i>Another all party policy!</i> |

The Tory attack on the blind Showed how bad the conservatives are !

The worst example of how the NCC attacked services and vulnerable people in the last four years is clear. Paying £865 million to PFI private contractors to run our schools, cutting disability & mental health services, paying millions to dodgy consultants and privatising retirement homes were also examples of appalling policies.

But the attempt to cut blind peoples access to audio books at libraries was truly a scandal that would shame anyone. Such cold heartedness shows how low these smug councillors will sink. Most of us are ashamed to have such representatives who'd even consider such a move and who only backed down after massive public protest. - Let's vote them out!
