

SOLIDARITY WITH CLEANERS AT

The conditions of cleaners for Swiss bank UBS, employed through the Lan-caster agency, are under attack. It's the same old tune: more work for less wages (and, of course, sack workers like shop steward Alberto Durango who stand up for their fellow workers). Do we accept that?

No. We already had one excellent demonstration outside UBS on February 12th: more than 70 of us showed UBS that solidarity is more than just a word.

Join the fight to get Alberto his job back and reverse cuts in working hours—and help us stand up to the wealthy banks and cowboy cleaning contractors who exploit migrant workers in the City of London.
